
Assignment 1: Download readymade free templates of E-Commerce websites and modify it.

The screenshot shows a web browser displaying the 'Zay' eCommerce template. The header includes a contact email (info@company.com), a phone number (010-020-0340), and social media links for Facebook, Instagram, Twitter, and LinkedIn. The main navigation menu has links for Home, About, Shop, and Contact. A search icon, a shopping cart icon with a '7' notification, and a user icon with a '+99' notification are also present. The main content area features a large image of a white and black sneaker with star patterns on the side. To the left of the image, the text 'Zay eCommerce' is displayed, followed by 'Tiny and Perfect eCommerce Template'. Below this, a detailed description states: 'Zay Shop is an eCommerce HTML5 CSS template with latest version of Bootstrap 5 (beta 1). This template is 100% free provided by [TemplateMo](#) website. Image credits go to [Freepik Stories](#), [Unsplash](#) and [Icons 8](#)'. Navigation arrows on the left and right sides allow users to scroll through more content.

- ⊕ This is the original free e-commerce template downloaded from TemplateMo. It shows the default logo, banner, and product images.

The screenshot shows a web browser displaying the 'Giz' eCommerce template. The header includes a contact email (info@company.com), a phone number (010-020-0340), and social media links for Facebook, Instagram, Twitter, and LinkedIn. The main navigation menu has links for Home, About, Shop, and Contact. A search icon, a shopping cart icon with a '7' notification, and a user icon with a '+99' notification are also present. The main content area features a large image of a blue and white Nike Air Jordan 1 high-top sneaker. To the left of the image, the text 'Giz eCommerce' is displayed, followed by 'Tiny and Perfect eCommerce Template'. Below this, a detailed description states: 'Giz Shop is an eCommerce HTML5 CSS template with latest version of Bootstrap 5 (beta 1). This template is 100% free provided by [TemplateMo](#) website. Image credits go to [Freepik Stories](#), [Unsplash](#) and [Icons 8](#)'. Navigation arrows on the left and right sides allow users to scroll through more content.

- ⊕ The template was customized by changing the logo to "Giz", updating the banner and product image.

- ⊕ The footer of the website was customized by updating the email address, copyright information, and address details. This ensures that the template reflects the student's personal/college information and gives a professional look to the modified website.

Assignment 2: Create simple and static demo web page for online shopping site.

- ⊕ This is a simple static demo web page for an online shopping site. The website includes three pages: Home, Products, and Shop. The Home page displays a Shopping Cart banner and navigation menu.
- ⊕ The Products page lists sample products with images and prices, and the Shop page provides a layout for browsing and selecting products.
- ⊕ This demo site helps in understanding basic structure and layout of an e-commerce website using HTML and CSS.

Assignment 3: Create simple and static Feedback Form (web page) for online shopping site.

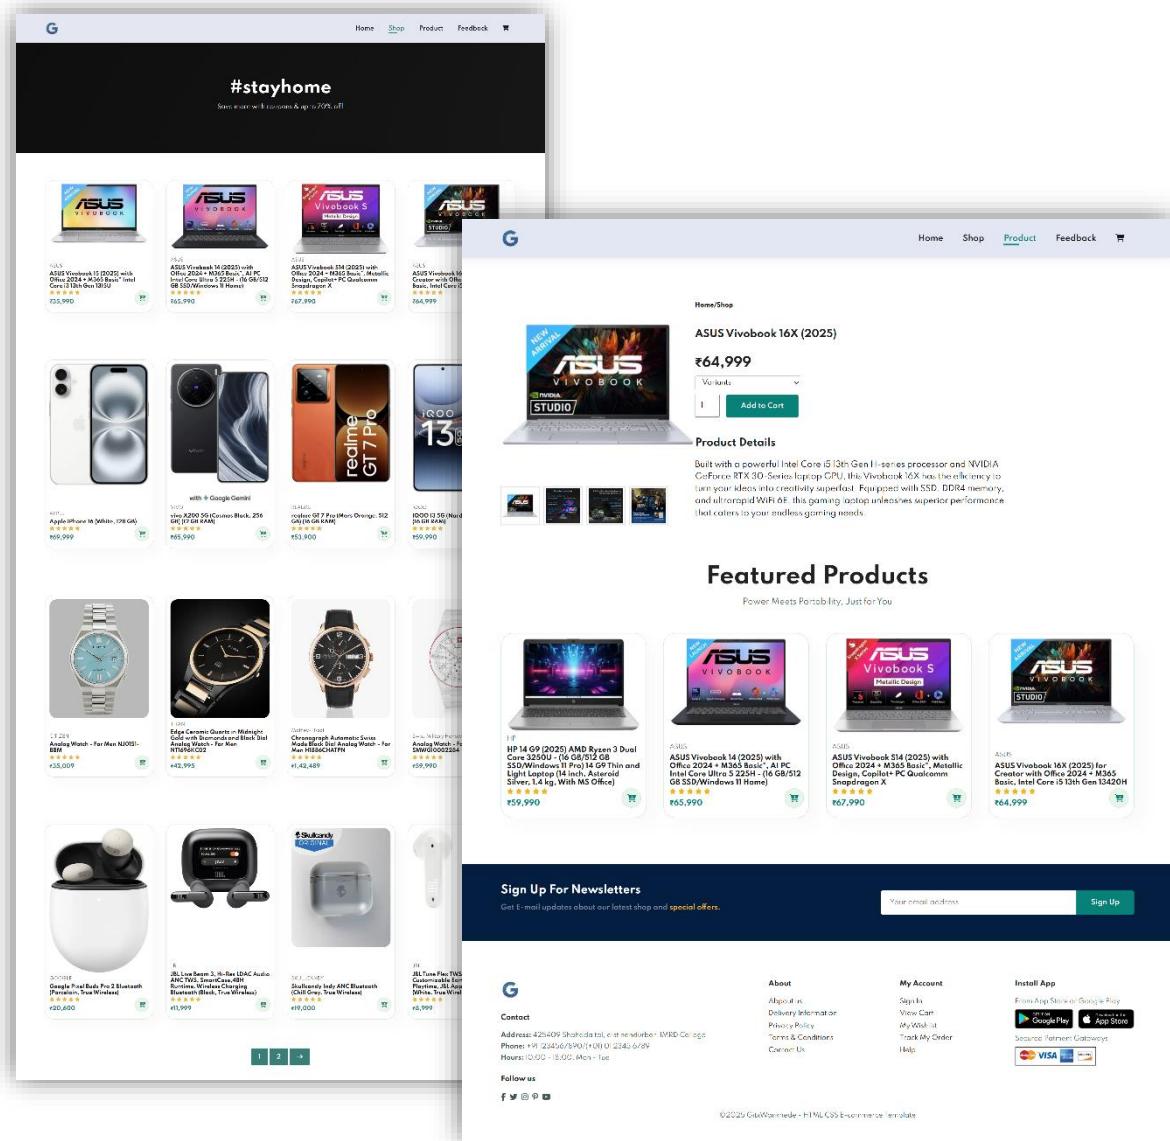

The screenshot shows a web browser window with a header bar containing a logo 'G', 'Home', 'Shop', 'Product', 'Feedback' (which is underlined), and a shopping cart icon. The main content area is titled 'Feedback Form'. It contains the following fields:

- Name: An input field with placeholder text 'Enter your name'.
- Email: An input field with placeholder text 'Enter your email'.
- Product Name: An input field with placeholder text 'Enter product name'.
- Rating: A radio button group with options 1, 2, 3, 4, and 5.
- Comments: A text area with placeholder text 'Write your feedback here'.

At the bottom is a green 'Submit' button.

- This is a static feedback form for an online shopping site. The form contains fields like Name, Email, Product Name, Rating (1–5), and Comments.
- It also includes a Submit button. This form helps users provide feedback about products and services.
- Since it is static, it does not store the submitted data but demonstrates the structure and layout of a real feedback form using HTML and CSS.

Assignment 4: Create simple and static demo product catalog web page for online shopping site.

- ➊ This image shows the product catalog page with all products listed. Each product is displayed with its image, name, and price. The grid layout allows users to browse multiple products easily and navigate to individual product details.
- ➋ The products page shows the product detail page. It displays the product name, description, price, and additional related products at the bottom. This helps users get detailed information about a product and explore similar items for better shopping experience.

Assignment 5: Demonstrate domain registration.

The screenshot shows the GoDaddy website interface. A banner at the top offers a .live domain for \$1.99. The search bar contains 'gizshop.com'. Below the search bar, it says 'gizshop.com is taken'. Three alternative domains are listed: 'gizshop.co.in' (regular price \$10.99, deal \$7.99), 'giz.shop' (regular price \$2,899.99, deal \$2,299.99), and 'gizshop.fashion' (regular price \$47.99). Each listing has a shopping cart icon.

1. Go to a domain registrar website such as GoDaddy.
2. Enter the desired domain name in the search bar.

The screenshot shows the GoDaddy 'Cart' page. It lists 'gizshop.co.in' as an item in the cart. The total is \$18.98. An optional add-on for 'Domain Ownership Protection' is offered at \$14.99 per year. The cart summary at the bottom shows 1 item and a subtotal of \$18.98. Buttons for 'Continue to Cart' and 'Continue Shopping' are visible.

3. Check the availability of the selected domain name.
4. Add the domain to the cart for registration.
5. Proceed to checkout to complete the registration process.

Assignment 6: Search Web Hosting Plans with configuration.

- ❖ Web hosting is a service that allows individuals or organizations to make their website accessible on the internet. Different hosting providers offer different plans based on storage, bandwidth, number of websites, and other features.

The screenshot shows a landing page for choosing a web hosting plan. At the top, it says "Choose your Web Hosting plan." Below this are two sections: "Standard Performance" (ideal for simple websites) and "High Performance" (great for multi-site, high traffic, or resource-heavy sites). Four plans are listed:

- Web Hosting Starter**: \$5.99/mo. Includes 1 website, 20 GB NVMe storage, cPanel, and a 30-day money-back guarantee. It saves \$0.
- Web Hosting Economy**: \$5.99/mo. Includes 1 website, 25 GB NVMe storage, cPanel, a free domain, free email, and a 30-day money-back guarantee. It saves 80%.
- Web Hosting Deluxe**: \$16.99/mo. Includes 10 websites, 50 GB NVMe storage, cPanel, a free domain, free email, and a 30-day money-back guarantee. It saves 82%.
- Web Hosting Ultimate**: \$21.99/mo. Includes 25 websites, 75 GB NVMe storage, cPanel, a free domain, free email, and a 30-day money-back guarantee. It saves 40%.

Each plan has a "Buy Now" button. A "Contact Us" button is located at the bottom right. At the very bottom, there's a section titled "STANDARD PERFORMANCE" with icons for uptime, bandwidth, backups, and data centers, followed by a list of included features.

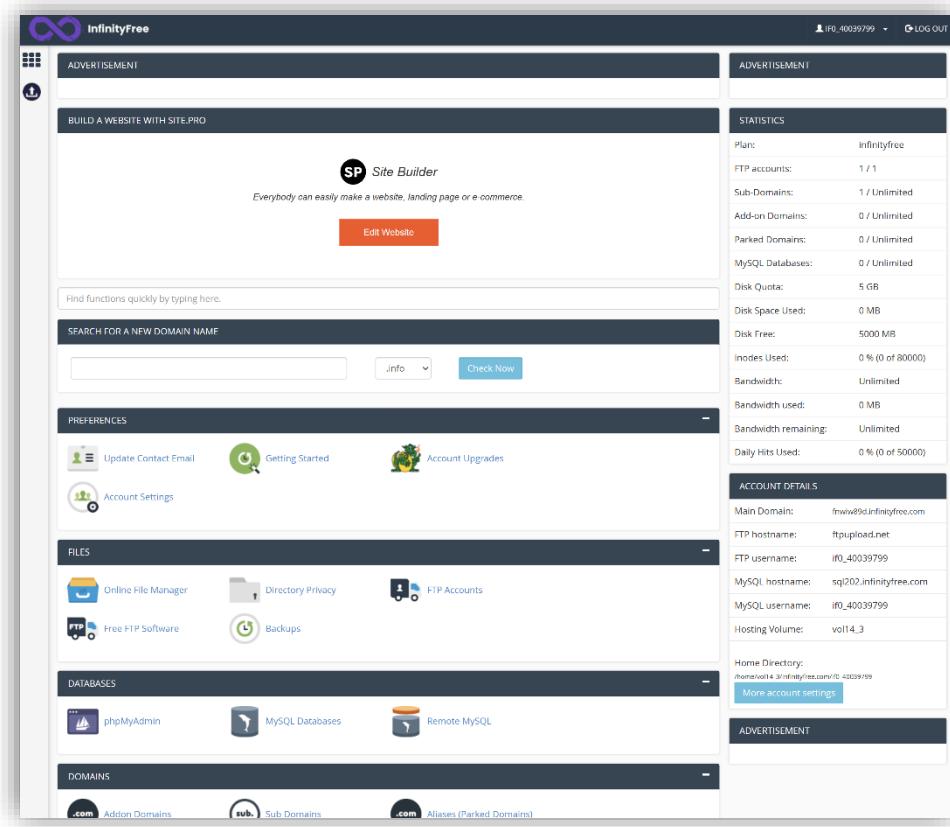

Every Web Hosting plan includes:

	99.9% uptime guarantee **		Unmetered bandwidth		Automatic daily backups		Global data centers
We guarantee your site's uptime, so you don't miss customers.	Handle all the traffic your business generates.	Recover your entire hosting account from the previous day.	Enjoy faster page loads with data centers in North America and Europe.				

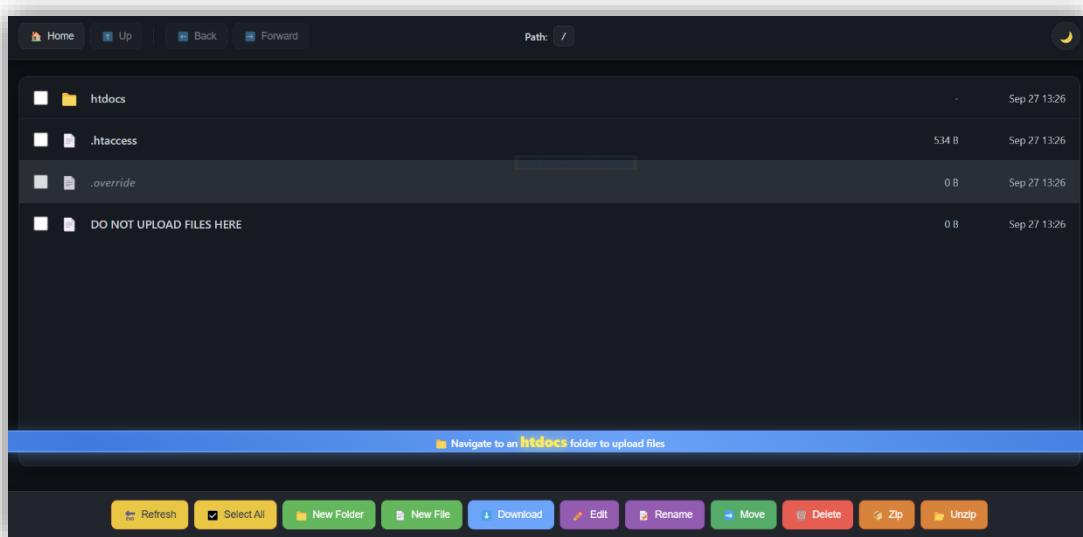

- ❖ This image shows basic hosting plans with pricing and features. Highlights the configuration details such as storage, bandwidth, email accounts, SSL certificate, and number of websites supported.

Assignment 7: Demonstrate free hosting with control panel.

- ❖ Free hosting allows users to upload and run their websites on the internet without any cost. Most free hosting providers offer a control panel (cPanel/custom panel) to manage files, databases, domains, and email accounts.

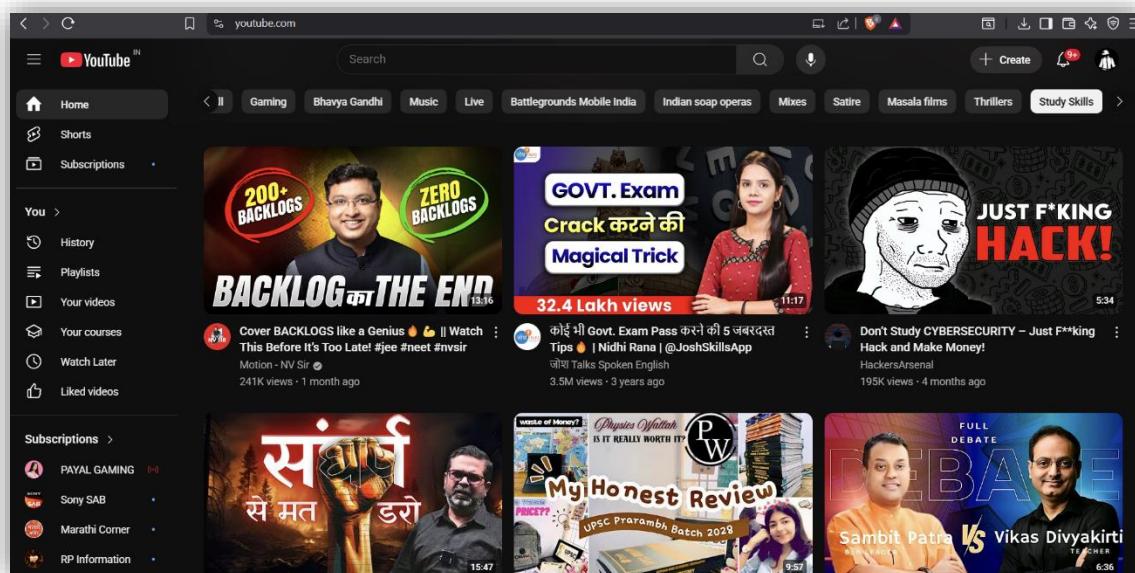

- ❖ This image shows the control panel used to manage the hosted website.

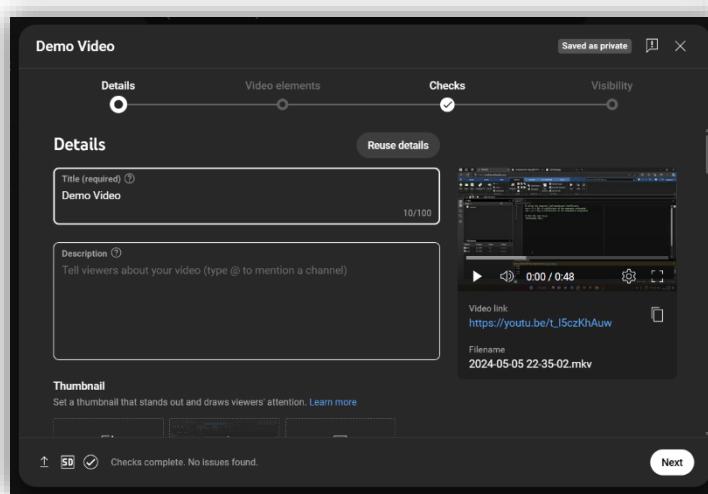

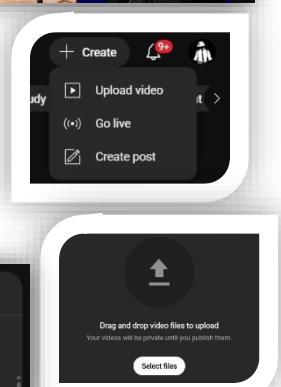

- ❖ Using the file manager in control panel, website files can be uploaded and managed.

Assignment 8: Upload any demo video on YouTube.

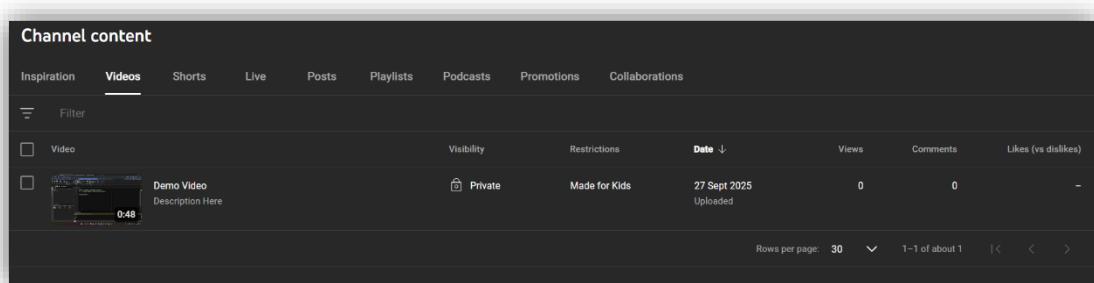

- ❖ YouTube is the largest video-sharing platform where users can upload, view, and share videos. In this assignment, a demo video was uploaded to YouTube to demonstrate the upload process.

- ❖ Open YouTube and sign in with your Google account.
- ❖ Click on the Create button and select Upload Video.
- ❖ Choose a demo video file from your computer to upload

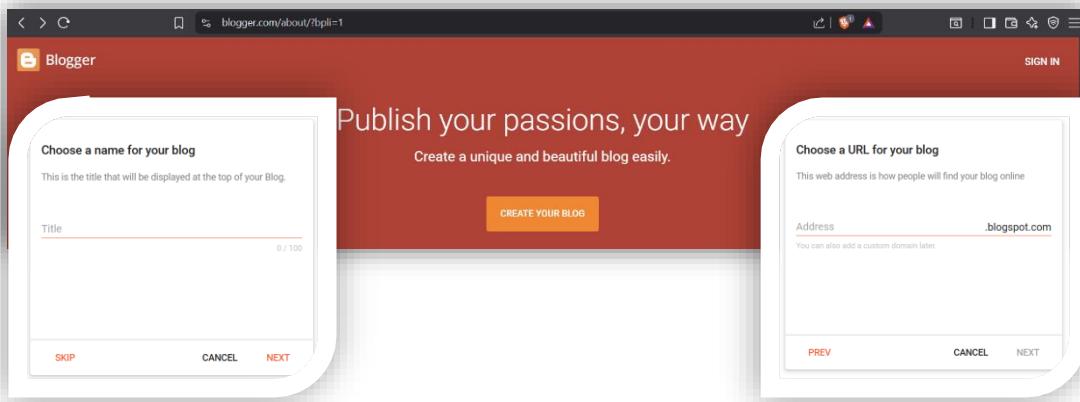

- ❖ Enter video details like title, description, and select a thumbnail.

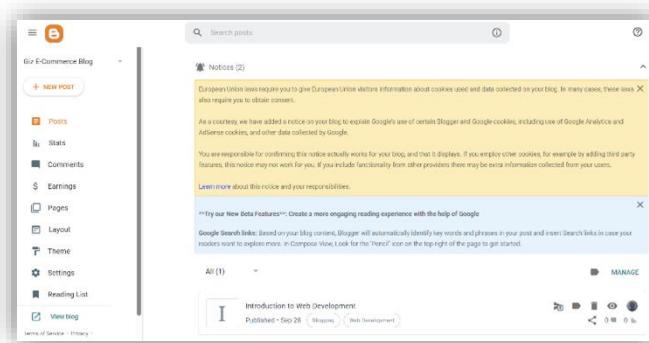

- ❖ This screenshot shows the demo video uploaded successfully on YouTube.

Assignment 9: Create and develop your blog.

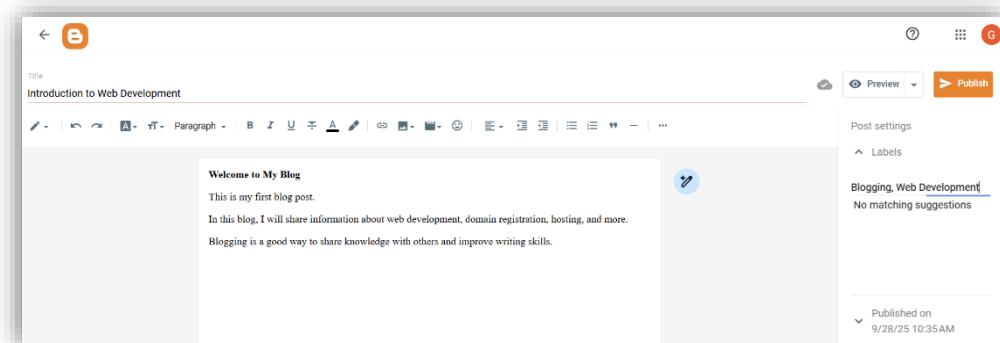

- ❖ A blog is an online platform where individuals can share their thoughts, articles, tutorials, or updates. In this assignment, a demo blog was created and developed using a free blogging platform.

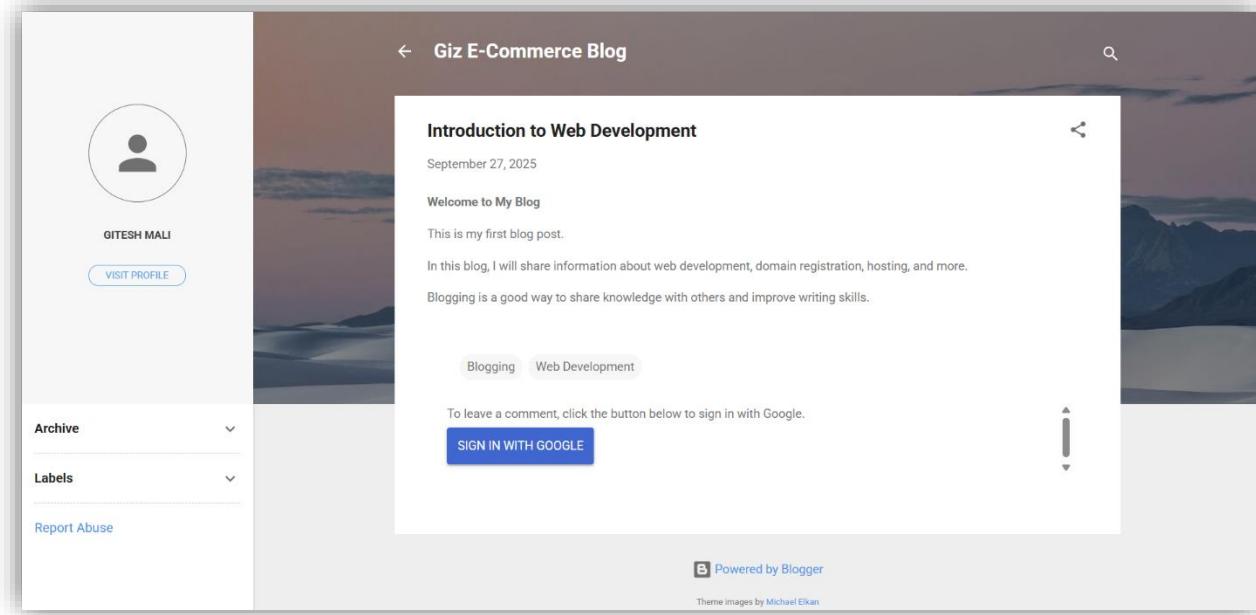

- ❖ Sign in to Blogger using Google account to start creating a blog.
- ❖ Enter blog title, choose blog address, and select a template.

- ❖ This image shows the blog dashboard where posts, layout, and themes can be managed.

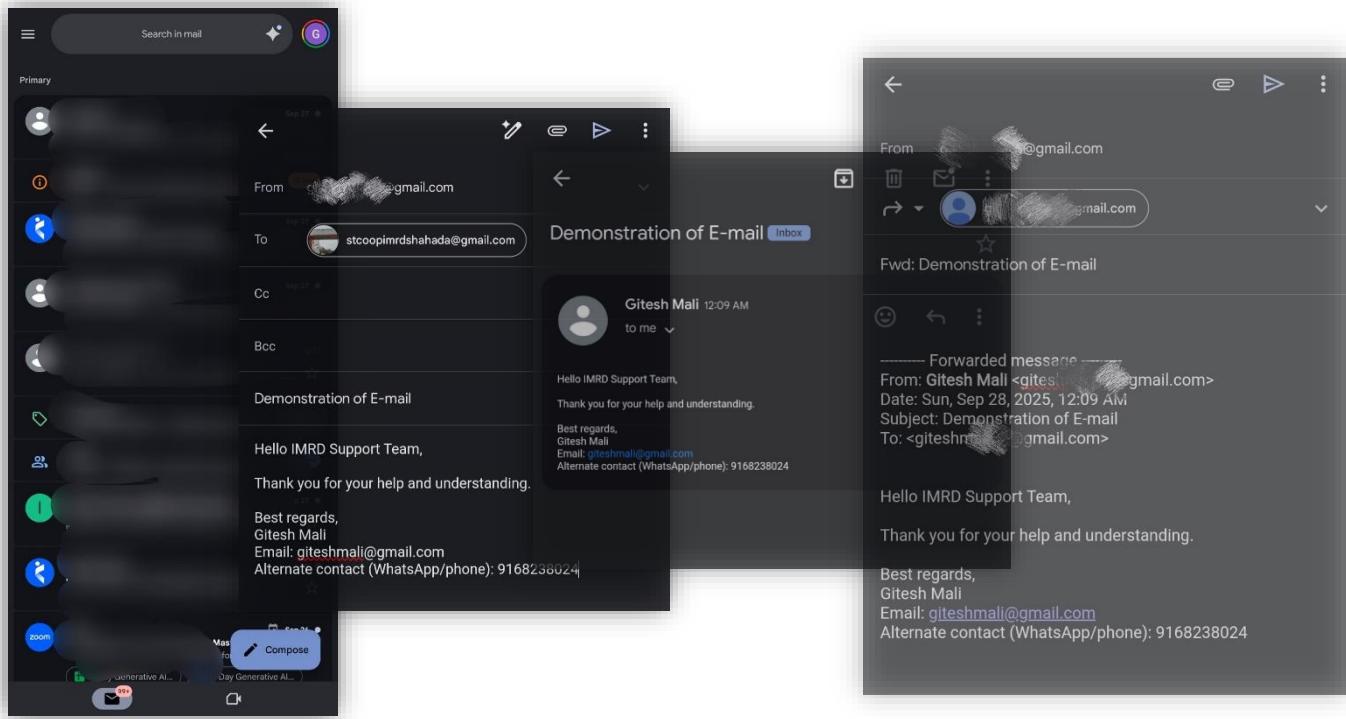

- ❖ Add a new blog post with a title, description, and labels.

💡 This image shows the published blog with a demo post visible.

Assignment 10. Demonstrate E-Mail Functions.

- ❖ Email (Electronic Mail) is a method of exchanging digital messages over the internet. This assignment demonstrates the basic functions of email using a free email service like Gmail.

1. Open your email account and login to view the inbox.
2. Click on Compose to create a new email, enter recipient, subject, and message, then send it.
3. Attach a sample file to the email before sending it.
4. Check the inbox for received emails and demonstrate replying to an email.
5. Forwarding an email to another recipient.
